APPLICATIONS INVITED TO THE DRONE REPAIR AND MAINTENANCE COURSE CERTIFICATE PROGRAMME

Applications are invited for the Certificate Programme in Drone Repair and Maintenance Course conducted by Dr R. Satheesh Centre for Remote Sensing and GIS, School of Environmental Sciences, Mahatma Gandhi University, Kottayam (Established in 2003 with the support from ISRO, Dept of Space, Govt. of India under the prestigious National Natural Resources Management System programme of the nation), in technical partnership with Asia Soft lab Pvt Ltd, a subsidiary organisation, SG group of Institutions Malaysia (also spread across Europe, Australia and Asia Pacific).

Empower yourself with the essential skills to keep drones flying high with our 15-day Drone Repair and Maintenance Course. Perfect for individuals with a basic education (10th pass and above), this hands-on program teaches you to

- disassemble, reassemble, test, troubleshoot, and maintain various drone components.
- From soldering electronic components to diagnosing common errors,

Become the go-to expert for drone upkeep and ensure the longevity and reliability of these cutting-edge machines.

For application forms and other details, please visit <https://ses.mgu.ac.in/> OR <https://asiasoftlab.in/>.

The applications for next batch is open now.
